

BRAND IDENTITY DOCUMENT

NextGen Shoes by AmpereWalk Pvt. Ltd.
Version 1.0 | 2026

"Power Every Step"

01. Brand Overview

AmpereWalk is a pioneering smart footwear company under NextGen Shoes, dedicated to converting the kinetic energy of human locomotion into usable electrical power. Born from a vision to eliminate personal energy poverty, AmpereWalk creates shoes that work while you walk — generating electricity, tracking health, and empowering users wherever they go.

Mission

To democratize access to portable, sustainable energy through innovative footwear technology — empowering communities, adventurers, and professionals alike.

Vision

A world where every step generates clean, usable power — eliminating energy poverty and reducing carbon dependence through wearable innovation.

Core Values

Innovation

We push boundaries in piezoelectric and kinetic energy harvesting technology.

Accessibility

We build solutions for underserved communities, hikers, and everyday users.

Sustainability

Every product is designed to be eco-friendly and reduce electronic waste.

Reliability

Built for 10,000+ cycles — durable, waterproof, and impact-resistant.

02. Logo & Brand Identity

Logo Concept

The AmpereWalk logo is a combination mark featuring a stylized blue shoe with a bold green lightning bolt, symbolizing the conversion of kinetic motion into electrical energy. The design communicates speed, power generation, and modern technology in a single, clean icon.

Wordmark

AmpereWalk

"Ampere" in navy represents electrical current and scientific precision. "Walk" in green represents motion, growth, and eco-friendliness.

Taglines

Primary:
"POWER EVERY STEP"

Secondary:
"ACCELERATE ENERGY WITH EVERY STEP"

Logo Usage Rules

✓ Do's

- Use on white, light gray, or navy backgrounds
- Maintain adequate whitespace around the logo
- Scale proportionally — never stretch
- Use approved color combinations only
- Apply the full combination mark for primary use

✗ Don'ts

- Do not rotate or distort the logo
- Do not change individual element colors
- Do not place on busy or clashing backgrounds
- Do not add effects like shadows or gradients
- Do not use low-resolution versions

03. Brand Colors

AmpereWalk’s color palette is built around the visual language of energy, nature, and technology. Each color carries meaning and is used consistently across all brand materials.

Primary Colors

AW Navy #0D1B4B	AW Green #4CAF50	AW Lime #8DC63F	AW Teal #00BCD4
AW Navy Trust, depth, electricity, professionalism	AW Green Energy, eco-friendliness, growth, action	AW Lime Motion, vitality, innovation, highlight	AW Teal Technology, clarity, modern design

Secondary & Neutral Colors

White #FFFFFF	Light Gray #F5F5F5	Mid Gray #E0E0E0	Dark Gray #424242	Text Black #1A1A1A

Color Usage Guidelines

Background	Foreground / Text	Use Case
AW Navy (#0D1B4B)	White, AW Green	Hero sections, headers, CTA buttons
White (#FFFFFF)	AW Navy, Dark Gray	Body text, product pages, documents
AW Green (#4CAF50)	White	Accent buttons, highlights, icons
AW Teal (#00BCD4)	White, Navy	Data callouts, technology badges
Light Gray (#F5F5F5)	Dark Gray, Navy	Section backgrounds, cards

04. Typography

AmpereWalk uses a clean, modern sans-serif type system to ensure clarity, energy, and consistency across all digital and print materials.

PRIMARY
Arial

AaBbCcDd 0123

Heading / Display — Bold, 28–36pt
Subheading — Semi-Bold, 22–26pt
Body Copy — Regular, 18–22pt
Caption / Footnote — Light, 14–16pt

Type Hierarchy

Level	Size	Weight	Usage
Main Headline	36–48pt	Bold	Hero banners, section titles
Section Heading	28–34pt	Bold	Page headings, slide titles
Subheading	22–26pt	SemiBold	Sub-sections, card titles
Body Copy	18–22pt	Regular	Paragraphs, descriptions
Caption / Tag	14–16pt	Light / Regular	Labels, footnotes, metadata

05. Brand Voice & Tone

AmpereWalk speaks with the confidence of an innovator and the warmth of a community builder. Our communication is energetic, clear, and always grounded in impact.

Voice Attributes

Energetic & Bold

We speak with confidence about our technology and its transformative impact.

Direct & Clear

We avoid jargon. Complex technology is explained simply.

Community-First

We speak to a global community of users who want to make a difference.

Tone by Context

Marketing

Motivational, punchy, aspirational. Lead with transformation.

Technical Docs

Precise, factual, structured. Focus on specifications and benefits.

Social Media

Engaging, conversational, story-driven. Celebrate every milestone.

Messaging Pillars

			
Power	Impact	Technology	Sustainability
Every step generates electricity. We harness what was wasted.	Solving energy poverty for 600M+ people without reliable power.	Piezoelectric transducers, PMIC, BLE — built for real-world use.	Eco-friendly energy with zero emissions and minimal waste.

06. Product Lines & Applications

Product Series

 Energy Series Charge Devices On-the-Go	 Fitness Series Track Steps & Activity	 Safety Series GPS & Emergency Alerts	 Adventure Series Rugged & Waterproof	 Professional Series Built for Hard Workers
---	--	---	---	---

Target Markets

 Children GPS tracking, safety alerts, geo-fencing, parental peace of mind.	 Outdoor Enthusiasts Reliable off-grid power for hikers, campers, and trekkers.
 Adults On-the-go device charging, health monitoring, fitness tracking.	 Underserved Communities Energy access for remote areas without reliable charging infrastructure.

Market Opportunity

Smart Shoes Market USD 1.10B by 2030 <i>15.3% CAGR (2023–2030)</i>	Wearable Tech Market USD 177B by 2030 <i>15% CAGR globally</i>	India Wearables 18.3% CAGR <i>Through 2031 — high demand</i>
--	--	--

07. Core Technology

AmpereWalk’s proprietary energy harvesting system converts the mechanical pressure of every footstep into usable electricity through a multi-stage process.

How It Works

01	02	03	04	05	06
Footstep Pressure	Piezo Transducers	Rectifier Bridge	PMIC Management	Battery Storage	USB/BLE Output

Key Technical Specifications

Component	Purpose	Specification
Piezoelectric Transducers	Convert pressure to AC electricity	0.3–5J per step (3J target)
Rectifier Bridge (Schottky)	Convert AC to pulsing DC	1N5817 Ultra-low forward voltage
Power Management IC (PMIC)	Boost voltage, battery protection	TPS6212x / LTC3588 family
Rechargeable Battery	Store harvested energy	Li-Po 500mAh at 3.7V
Output Port	Charge external devices	USB-A or USB-C standard port
Bluetooth Module	Data transmission to app	ESP32 BLE low-energy module

Lifetime Energy Potential: ~182.5 kWh per person (~12,166 smartphone charges)

08. Brand Applications

Digital Presence

Website & App

- Navy header with green CTA buttons
- White background with green/teal accents
- BLE data displayed in real-time dashboards
- Lifestyle imagery: walkers, hikers, communities

Social Media

- Instagram: Lifestyle + tech visuals
- LinkedIn: Milestones, awards, traction updates
- Consistent use of AW Navy + Green palette

LinkedIn Profile

linkedin.com/company/amperewalk-pvt-ltd/

- Share innovation updates & prototype videos
- Celebrate competition wins and press coverage
- Thought leadership on energy harvesting & wearables

Content Themes

- Energy poverty awareness
- Sustainable technology innovation
- Startup journey & validation milestones

Milestone & Traction Timeline

Phase	Stage	Achievement
01	2023	Foundation & R&D — Tech development started
02	Academic	1st Prize — Prototype Project Recognition
03	Competition	1st Prize at College Shark Tank
04	Validation	Hackathons, events & positive market feedback
05	Current	AI Impact Summit, Delhi — Strong industry demand

09. Brand Summary

AmpereWalk — Power Every Step

AmpereWalk is not just a shoe company. We are an energy company, a sustainability movement, and a technology pioneer — all wrapped into every pair of smart shoes we create. Our brand stands at the intersection of human motion and electrical innovation.

What We Stand For

- Eliminating personal energy poverty
- Making sustainability wearable
- Empowering every step with purpose
- Building technology for the real world

How We Sound

- Energetic and bold — not boastful
- Clear and direct — not technical jargon
- Inclusive and community-driven
- Motivational and forward-looking

The ground beneath your feet is full of potential.
AmpereWalk unlocks it — one step at a time.
